

Dear Parent/Guardian,

Welcome to the beginning of the 2011-12 School Year!! I am looking forward to an educational year with your son/daughter! This letter shares additional information as to the math class supplies needed by your son/daughter. The items listed are needed by Tuesday, September 13th.

A graphing calculator (TI-83 or above) is required for this class and all math classes at PHS. Consequently, if buying a calculator presents some difficulty please notify me as soon as possible.

I would like to take this opportunity to encourage you to please check your son/daughter's grade on Teacher Ease. (www.teacherease.com) I do my best to keep this as updated as possible and hope that it helps you better assist your son/daughter. If you have questions on how to set this up, please contact the main office, 810-225-5500.

Please look for the class syllabus, as it has been distributed and discussed in class, and please do not hesitate to call or email me for any reason. I look forward to working together this school year and providing an enriching experience in the field of mathematics for your son/daughter.

Sincerely,

Jennifer Cottrill
